Notes to the Interim Condensed Consolidated Financial Statements (Unaudited)

Six Months Ended April 30, 2023 (Expressed in Canadian Dollars)

1. Reporting Entity and Nature of Operations

Copper Fox Metals Inc. (“**Copper Fox**” or the “**Company**”) was incorporated on February 27, 2004 under the Business Corporations Act of Alberta. On July 14, 2010 the Company transferred its registration from Alberta and became incorporated under the Business Corporations Act of British Columbia. The Company is engaged in the exploration for and development of copper mineral properties in Canada and the United States. Copper Fox’s shares trade on the TSX Venture Exchange (“**TSX.V**”) under the trading symbol **CUU** and effective September 7, 2021, the Company’s shares trade on the **OTCQX** under the symbol **CPFXF**. To date, the Company has not earned any revenue from these operations and is in the exploration and evaluation stage.

The Company maintains its head office at 340 – 12 Avenue SW, Suite 650, Calgary, Alberta. These consolidated financial statements include the accounts of the Company and the accounts of its subsidiaries. Copper Fox’s subsidiaries include:

- 100% ownership of Desert Fox Copper Inc., which was incorporated under the laws of British Columbia, Canada
 - 100% ownership of Desert Fox Minerals Co., which was incorporated under the laws of Arizona, USA.
 - 100% ownership of Desert Fox Sombrero Butte Co., which was incorporated under the laws of Arizona, USA
 - 100% ownership of Desert Fox Van Dyke Co., which was incorporated under the laws of Arizona, USA
 - Subsequent to April 30, 2023, 100% ownership of Desert Fox Mineral Mountain Co., which was incorporated under the laws of Arizona, USA
- 100% ownership of Northern Fox Copper Inc., which was incorporated under the laws of British Columbia, Canada

Going Concern

The recoverability of amounts shown for resource properties and related exploration and evaluation costs is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development and upon future profitable production or proceeds from the disposition thereof.

The Company is currently exploring its mineral properties and managing its investment in the joint venture interest in the Schaft Creek project. During the six months ended April 30, 2023, the Company incurred a net loss of \$533,608 (April 30, 2022 - \$612,002); the Company’s cash position at April 30, 2023 was \$928,641 (October 31, 2022 - \$132,192) and its working capital was \$616,129 (October 31, 2022 – working capital deficiency \$177,540). The Company has concluded that the working capital held at April 30, 2023 is insufficient to fund the Company’s expenditures over the next twelve months and it has implemented a strict capital management program to monitor the cash outflows. Management plans to raise the needed funds through a private placement. If management were still unsuccessful in raising the additional funds necessary, they would sell one or more of the Company’s properties. Management has been successful in the past in raising required equity financing and believes they will be able to do so again.

Notes to the Interim Condensed Consolidated Financial Statements (Unaudited)

Six Months Ended April 30, 2023 (Expressed in Canadian Dollars)

1. Reporting Entity and Nature of Operations (continued)

The conditions described above indicate the existence of material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern. Many factors influence the Company's ability to raise funds, and there is no assurance that the Company will be successful in obtaining the required financing for these or other purposes, including for general working capital. These consolidated financial statements do not contain any adjustments to the amounts that may be required should the Company be unable to continue as a going concern. Such adjustments could be material.

2. Basis of Presentation and Significant Accounting Policies

These interim condensed consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to a going concern, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The ability of the Company to continue as a going concern is dependent on obtaining additional financing through the issuance of common shares or obtaining joint venture or property sale agreements for one or more properties.

Statement of Compliance

These interim condensed consolidated financial statements, including comparatives, have been prepared in accordance with International Accounting Standard 34 "Interim Financial Reporting" ("IAS 34") using accounting policies consistent with IFRS issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

Basis of Preparation

These interim condensed consolidated financial statements have been prepared on a historical cost basis, except for certain financial statements, which are measured at fair value. In addition, these interim condensed consolidated financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

The preparation of these interim condensed consolidated financial statements in conformity with IAS 34 requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates. These interim condensed consolidated financial statements do not include all of the information required for full annual financial statements.

These interim condensed consolidated financial statements, including comparatives, have been prepared on the basis of IFRS standards that are published at the time of preparation.

COPPER FOX METALS INC.

Notes to the Interim Condensed Consolidated Financial Statements (Unaudited)

3. Changes in Accounting Policies

New accounting standards and interpretations

Certain new accounting standards and interpretations have been published that are not mandatory for the January 31, 2023 reporting period. The Company has not early adopted the following new and revised standards, amendments and interpretations that have been issued but are not yet effective:

- Presentation of financial statements

An amendment to IAS 1 was issued in January 2020 and applies to annual reporting periods beginning on or after January 1, 2023. The amendment clarifies the criterion for classifying a liability as non-current relating to the right to defer settlement of a liability for at least 12 months after the reporting period.

The Company anticipates that the application of the above new and revised standards, amendments and interpretations will have no material impact on its results and financial position.

4. Investments

Liard Copper Mines Ltd.

Copper Fox directly owns 29,342 shares of Liard Copper Mines Ltd. (“**Liard**”), a private company incorporated in British Columbia, which represents approximately 1.55% of the issued and outstanding shares of Liard. These shares were originally recorded at a cost value of \$759,305 upon acquisition in two separate 2011 transactions.

During the year ended October 31, 2016, pursuant to a purchase of Liard shares by the Schaft Creek Joint Venture (“**SCJV**”), the Company determined that the value of the Liard shares purchased in 2011 were impaired by \$652,480 and were subsequently written down to the Fair Market Value (“**FMV**”) of \$106,825, which was referenced to a private sale of Liard shares in 2016 (Level 3 of the financial instruments – see Note 15). There were no similar transactions in 2017 - 2022, so the Company determined that the 2016 private sale is the best reference of the FMV of the Liard shares as of April 30, 2023. As such, there was no effect on other comprehensive loss for the six months ended April 30, 2023 or the years ended October 31, 2022.

Copper Fox indirectly owns an additional 21.35% of the Liard shares owned by the SCJV with Teck Resources Limited (“**Teck**”). As these Liard shares are held within a trust account that the Company does not control, the 21.35% ownership of Liard is not reflected in the consolidated financial statements.

Liard holds a 30% Net Proceeds Interest in the Schaft Creek project, subject to certain terms and conditions.

District Copper Corporation

With the Company ceasing to have significant influence over District Copper (see Note 5), the Company’s 3,328,326 shares of District Copper are measured and presented at the observable market share price as at the date of the statements of financial position. As of April 30, 2023, these District Copper shares were valued at \$299,549, with a fair value adjustment of \$116,491 gain included in other comprehensive loss for the period ended April 30, 2023.

5. Investment in Associate

As at October 31, 2021, the Company held a 23.87% interest in District Copper and retained control in District Copper, resulting in the Company accounting for its interest in District Copper as an Investment in Associate under the Equity Method of accounting.

Subsequent to October 31, 2021, the Company ceased to have significant influence in District Copper and only held an 18.24% interest. As such, effective November 1, 2021, the Company recorded its interest in District Copper as an Investment (see Note 4) and recognized a loss on derecognition of investment in associate of \$333,839 during the year ended October 31, 2022.

District Copper is publicly traded on the TSX:V and its principal place of business is British Columbia, Canada. The investment in associate was assessed for impairment indicators relating to the underlying assets of District Copper in accordance with IAS 36 and IFRS 6.

6. Exploration and Evaluation Assets (continued)

Schaft Creek Joint Venture

Copper Fox's primary asset is a 25% direct and indirect working interest in the Schaft Creek Joint Venture ("SCJV"). The SCJV holds two main assets: i) the Schaft Creek copper-gold-molybdenum-silver project located in northwestern British Columbia and ii) an 85.41% equity interest in Liard Copper Mines Ltd. Liard holds a 30% Net Proceeds Interest in the Schaft Creek project subject to certain terms and conditions. Royal Gold, Inc. holds a 3.5% Net Proceeds Interest in certain mineral claims which are part of the SCJV.

Teck is the operator of the SCJV and is responsible for, in addition to other obligations, \$60 million in milestone payments (\$20 million received) and funding of the first \$60 million in pre-production expenditures. As of April 30, 2023, Teck has funded approximately \$29 million towards the Schaft Creek project since mid-2013. After the first \$60 million has been funded by Teck, the pre-production expenditures would be split based on the ownership percentage, with Copper Fox's remaining two cash milestone payments (\$40 million) being applied against first if pre-production costs exhaust the two cash milestone payments, Teck will further assist the Company by providing loans, as necessary, without dilution to the Company's 25% joint venture interest (Note 13).

Van Dyke Project

In 2012, Copper Fox acquired 100% of the Van Dyke copper project located in Miami, Arizona. Acquisition costs were \$500,000 in cash to Bell Copper Corporation, \$1,499,400 (US\$1,500,000) to the Vendors (owners of the Van Dyke project) and assumption of obligations in respect of the Van Dyke project, subject to certain amended terms and conditions. The Vendors retained a 2.5% Net Smelter Return ("NSR") production royalty from the Van Dyke deposit. As of April 30, 2023, Copper Fox has incurred \$11,636,340 (US\$8,587,155) in expenditures on Van Dyke.

Sombrero Butte Project

In 2012, Copper Fox acquired the rights, provided all option payments are made when due, to 100% of Bell Copper's Sombrero Butte property located 44 miles northeast of Tucson, Arizona. Acquisition costs were \$500,000 in cash and an assumption of Bell Copper's remaining option obligation on the property of \$599,760 (US\$600,000). In 2016, Copper Fox re-negotiated the continuing obligation on the property to a US\$40,000 annual payment. In October 2021, the Company made its final US\$40,000 payment and now holds an undivided 100% interest in the Sombrero Butte property. As of April 30, 2023, Copper Fox has incurred \$2,725,841 (US\$2,011,562) in expenditures on Sombrero Butte.

Mineral Mountain Project

In 2015, Copper Fox established the Mineral Mountain copper project which is located 20 miles east of Florence, Arizona and is 100% wholly owned. As of April 30, 2023, the Company has incurred \$1,168,413 (US\$862,242) in expenditures on Mineral Mountain.

Eaglehead Project

In February 2020, Northern Fox Copper Inc. (“Northern Fox”), a wholly owned subsidiary of the Company, entered into an agreement with District Copper to purchase the Eaglehead project for \$1,200,000 (\$200,000 paid initially and \$340,000 paid in April 2022 (see below)), the assumption by Northern Fox of reclamation bonds of \$212,000 and the reservation of a 0.5% net smelter return royalty for District Copper on any future production. Northern Fox has the option to purchase 50% of the 0.5% NSR from District Copper, exercisable from the date of the agreement and up to two years from the date of commencement of production of the project for \$1,000,000. In March 2021, the Company received the Mines Act Permit from the BC Ministry of Energy and Mines which allowed the Company to proceed with paying the \$212,000 reclamation bond and complete the purchase agreement to acquire the Eaglehead project. The remaining \$1 million will be paid to District Copper in three annual instalments of \$340,000 (paid in April 2022), \$330,000 (paid in April 2023) and \$330,000, respectively, on each anniversary following the closing on April 19, 2021 (see Note 8 Promissory Note). The Company also recorded \$241,000 as a decommissioning liability for the Eaglehead project as of April 30, 2023 (Note 10).

In addition to the NSR from District Copper, certain claims under the Eaglehead project are subject to NSRs and a net milling royalty (the “Royalties”). Individually, the Royalties range from 2% to 2.5%. The Company has the right to purchase from 1% to 1.5% of each of the Royalties for purchase prices ranging from \$1,000,000 to \$2,000,000. As of April 30, 2023, the Company has incurred \$3,135,374 in expenditures on Eaglehead.

Fiscal 2025 and onwards	161,880

10. Decommissioning Liability

The Company's decommissioning liabilities relate to its share of reclamation and closure costs for the Schaft Creek property and Eaglehead property. The total decommissioning liability for each property is based on the Company's proportion of estimated future costs necessary to reclaim the property and facilities.

The Company estimated the net present value of its share of the decommissioning liability of Schaft Creek to be \$180,000 as at April 30, 2023 (October 31, 2022 - \$180,000) based on an undiscounted and inflated future liability of \$180,000 (October 31, 2022 - \$180,000).

The Company estimated the decommissioning liability of Eaglehead to be \$241,000 as at April 30, 2023 (October 31, 2022 - \$241,000).

13. Commitment and Contingent Liability

Schaft Creek Joint Venture

Teck holds a 75% interest and the Company holds a 25% interest in the SCJV (Note 6), and Teck is the operator of the SCJV. Management of the SCJV is made up of two representatives from Teck and the Company with voting proportional to their equity interests.

Under the SCJV agreement, Teck is required to make three cash milestone payments to the Company: (i) \$20 million upon entering into the agreement (received), (ii) \$20 million upon a production decision approving mine construction, and (iii) \$20 million upon completion of construction of mine facilities.

The SCJV agreement provides that Teck and the Company are each responsible for their pro-rata share of project costs in accordance with their interests, except that Teck is solely responsible for the first \$60 million in pre-production costs. As of April 30, 2023, Teck has funded approximately \$29 million towards the Schaft Creek project since mid-2013. If pre-production costs exceed \$60 million, the Company's pro rata share of such costs will be set off against the two remaining cash milestone payments (totaling \$40 million) payable by Teck to the Company. If pre-production costs exhaust the two cash milestone payments, Teck will further assist the Company by providing loans, as necessary, without dilution to the Company's 25% joint venture interest.

Once a production decision has been made, Teck will make an irrevocable offer to the Company:

- (i) to use all reasonable commercial efforts to arrange project equity and debt financing for at least 60% of project capital costs or such portion as Teck determines is commercially available on reasonable terms at the relevant time, and
- (ii) to fund by way of loans to the Company, the Company's pro rata share of project capital costs not covered by project debt financing at the Prime Rate plus 2%, if requested by the Company, without dilution to the Company's 25% joint venture interest.

The Company must notify Teck within 60 days after Teck's offer as to whether it accepts Teck's offer or whether it will arrange for its own financing.

Contingent liability

The Company filed certain tax filings under the Voluntary Disclosure Program ("VDP") with the Canada Revenue Agency ("CRA"). It is estimated that the penalties and arrears interest would be insignificant. Accordingly, these penalties and arrears interest have been disclosed as a contingent liability, and not recognized as a liability or provision.

14. Financial Instruments

The Company's financial instruments consist of cash and cash equivalents, trade and other receivables, deposits, investments, trade and other payables, promissory note and office lease liability. The estimated fair value of cash and cash equivalents, amounts receivable, deposits and accounts payable approximate their carrying value due to the immediate or relatively short period to maturity. The Company's investment in District Copper shares is measured at fair value using Level 1 inputs while the Company's investment in Liard is measured at fair value using Level 3 inputs. The Company's investment in Liard consists of unlisted equity instruments (common shares of Liard). The determination of fair value by management was based on the most recent transaction of the underlying company (Note 4). The Company performed a sensitivity analysis on the carrying value of its Level 3 asset and noted that a 20% decrease would result in \$21,365 decrease in fair value. The fair values of office lease liability and promissory note are initially recorded at fair value and subsequently carried at amortized cost using rates comparable to market interest rates.

Determination of Fair Value

The Company classifies the fair value of its financial instruments measured at fair value according to the following hierarchy, based on the number of observable inputs used to value the instrument:

- *Level 1* – observable inputs such as quoted prices in active markets.
- *Level 2* – inputs, other than the quoted market prices in active markets, which are observable, either directly and/or indirectly, and
- *Level 3* – unobservable inputs for the asset or liability in which little or no market data exists, therefore requiring an entity to develop its own assumptions. The Company's direct investment in Liard is carried every year at fair value and is a Level 3 instrument.

The Company's activities expose it to a variety of financial risks, which arise because of its exploration, development, production, and financing activities. These include:

- Credit risk
- Market risk
- Liquidity risk

Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Company's receivables from partners and tax authorities. The maximum exposure to credit risk at April 30, 2023 is \$11,207 (October 31, 2022 - \$42,066).

COPPER FOX METALS INC.

Notes to the Interim Condensed Consolidated Financial Statements (Unaudited)

Six Months Ended April 30, 2023 (Expressed in Canadian Dollars)

14. Financial Instruments (continued)

Market Risk

Market risk is the risk that changes in market conditions, such as commodity prices, foreign exchange rates and interest rates will affect the Company's income or the value of its financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while maximizing the Company's return.

Foreign Currency Exchange Rate Risk

Foreign currency exchange rate risk is the risk that the fair value of future cash flows will fluctuate because of changes in foreign exchange rates. During the six months ended April 30, 2023 the Company was involved with preliminary exploration activities in the United States. As such, the Company is exposed to fluctuations in the United States dollar exchange rates compared to Canadian dollar exchange rates. A 5% strengthening or weakening of the US dollar would have significant impact on the total assets and the net losses of the Company.

Due to its US activities, the Company has an exposure to foreign currency exchange rates. The carrying values of US dollar denominated monetary assets and liabilities are subject to foreign exchange risk.

As at April 30, 2023, the Company had \$325,376 in US denominated cash balances.

Interest Rate Risk

Interest rate risk is the risk that future cash flows will fluctuate because of changes in market interest rates.

As of April 30, 2023, the Company is exposed only on its cash balances.

Commodity Price Risk

Commodity price risk is the risk that future cash flows will fluctuate because of changes in commodity prices.

Commodity prices for minerals are impacted by the relationship between the Canadian dollar and United States dollar as well as the global economic events that dictate levels of supply and demand.

Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with its financial liabilities. The Company's financial liabilities consist of trade and other payables, office lease liability (current portion) and promissory note (current portion). Trade and other payables consist of invoices payable to trade suppliers for office, field operating activities and capital expenditures. The Company processes invoices within a normal payment period of approximately 30 days. Office lease liability relates to the Company's office space in Calgary, Alberta. Lease payments are due on a monthly basis. Promissory note consists of the 2024 payment with respect to the Company's Eaglehead project.

COPPER FOX METALS INC.

Notes to the Interim Condensed Consolidated Financial Statements (Unaudited)

Six Months Ended April 30, 2023 (Expressed in Canadian Dollars)

14. Financial Instruments (continued)

Trade and other payables have contractual maturities of less than one year. The Company maintains and monitors a certain level of cash flow which is used to finance all operating and capital expenditures.

15. Capital Management

The Company considers its capital structure to consist of share capital and warrants. The Company manages its capital structure and adjusts it, based on the funds available to the Company, to support the acquisition, exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management.

The mineral properties in which the Company currently has an interest in are in the exploration stage; as such, the Company is dependent on external financing to fund its activities. Additional sources of funding, which may not be available on favourable terms, if at all, include share equity and debt financings; equity, debt or property level joint ventures; and sale of interests in existing assets. To carry out the planned exploration and development and pay for operating expenses, the Company will spend its existing working capital and raise additional amounts as needed. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes in the Company's approach to capital management during the six months ended April 30, 2023. The Company is not subject to externally imposed capital requirements. The Company's investment policy is to invest its surplus cash in highly liquid short-term interest-bearing investments; all held within major Canadian financial institutions.
